

Play-Well  
TEKologies

# Engineering FUNdamentals with Lego Classes

AT SOLLAZZO CENTER , 270 HARRISON AVENUE

OPEN TO GIRLS & BOYS

Grade K-2 ~ 3:30 - 5:00 pm

Wednesdays, March 28<sup>th</sup> - May 23<sup>rd</sup>

No class on April 4<sup>th</sup>

Play-Well TEKologies provides project-based programs designed to teach principles and methods of engineering, architecture, and science to grades K - 8<sup>th</sup>, utilizing LEGO™ and other building systems. We strive to build problem-solving skills, provide an opportunity for creative expression, foster a greater appreciation of how things work, and encourage the qualities of inquisitiveness, self-reliance, and self-confidence in children. We do this in the context of fun-filled engineering and architectural projects that both the children and our instructors enjoy! (This class is not affiliated with the LEGO Group.)

You child will design and build motorized machines, catapults, pyramids, demolition derby cars, buildings and other constructions out of LEGO® bricks. While exploring engineering, architecture and physics, students will develop problem solving and critical thinking skills. Returning students are given new projects that build on previous projects and concepts.

If you would like more information about Play-Well TEKologies, visit our website at [www.play-well.org](http://www.play-well.org) or call (914) 670-3179
